

Roman Krasnoperov

Education:

- Moscow State University of Geodesy and Cartography. Department of Geodesy. Postgraduate studying for PhD degree (2007–2010)
- Moscow State University of Geodesy and Cartography. Department of Geodesy. Undergraduate studying (2002–2007). Degree of Engineer in Space Geodesy (2007)

Language skills: Russian, English

Scientific degrees:

- PhD degree in physical and mathematical sciences. Schmidt Institute of Physics of the Earth of Russian Academy of Sciences (2012)

Positions:

- Geophysical Center of RAS, Scientific Secretary (2018–present)
- Geophysical Center of RAS, Leading research scientist (2018–present)
- Geophysical Center of RAS, Senior research scientist (2013–2018)
- Geophysical Center of RAS, Research scientist (2007–2013)

Scientific activity:

- Development of geomagnetic observational data analysis methods (2017–present)
- Development of the Russian-Ukrainian segment of the INTERMAGNET international network of geomagnetic observatories (2009–present)
- Geographic information systems' (GIS) applications for geoscience data acquisition, storage and analysis (2007–present)
- Space Geodesy (GNSS) methods' applications for Earth crust motion and deformation analysis (2008–2012)

Organizational and international activity:

- Member of the Scientific Council of the Geophysical Center of RAS (2014–present)
- Secretary of the IUGG National Geophysical Committee of Russia (2009–present)
- Member of the Working group on international activity of the Federal Agency of Scientific Organizations and Russian Academy of Sciences (2015–2018)
- Member of the ICSU CODATA Task group “Earth and Space Science Data Interoperability” (2011–2018)
- Visiting researcher at NOAA National Geophysical Data Center (Boulder, Colorado, USA) (2010)

Academic activity:

- Visiting lecturer, Moscow College of Geodesy and Cartography (2008–2010)
- Postgraduate student, Department of Geodesy, Moscow State University of Geodesy and Cartography (2007–2010)

Scientific publication:

- More than 30 scientific publications in peer-reviewed Russian and international scientific journals and edited volumes.
- More than 50 reports at Russian and international conferences and assemblies.
